PROFESSIONAL SUMMARY

Computer Science undergraduate with strong foundation in **Java, Python, Data Structures and Algorithms**. Interested in development, web applications and AI technologies. Experienced in building Django-based applications and Java.

EDUCATION

Matriculation

The Pentecostal Assembly School
89.67%

2020 – 2021

Bachelor of Technology

Siksha 'O' Anusandhan University, Bhubaneswar
7.32/10 (Current)

2024–Present
Bhubaneswar

Intermediate

The Pentecostal Assembly School
71.67%

2021 – 2023

SKILLS

Programming Languages: Java, Python, SQL

Frontend: HTML, CSS3, JavaScript

Backend Frameworks: Django

Databases: MySQL

Developer Tools: Linux, Git, GitHub, Docker, CI/CD

Software Engineering: Debugging, Performance Optimization, Testing

Professional Skills: Teamwork, Cross-functional Collaboration, Technical Communication

KEY COURSES TAKEN

Core Computer Science

Data Structures and Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networking

POSITIONS OF RESPONSIBILITY

- Took initiative in delivering technical presentations in college, explaining programming concepts and problem-solving approaches to peers.
- Actively participated in coding practice on online platforms, consistently improving data structures and algorithm skills through regular problem solving.
- Collaborated with classmates during academic activities and coding discussions, helping organize knowledge sharing and peer learning in programming subjects.

11/2024 – Present

PROJECTS

Blog Web Application

HTML, Python, Django, Gemini AI

2025

- Built a **Django-based** blog platform with secure user authentication.
- Implemented **CRUD operations** for blog posts.
- Designed database models using **MySQL**.
